

Improving Teaching and Learning in Mathematics.

Overview

Mathematics is a demanding subject at primary level, where the teacher delivers a broad and challenging mathematics curriculum. Confidence and dexterity in the classroom are essential prerequisites for the successful teaching of mathematics. The importance of a young child's ability to count, calculate and work confidently with mathematical ideas cannot be overstated. To enhance progress in mathematics pupils require a sound mathematical foundation, delivered with enthusiasm, confidence and flair.

The programme is designed to:

The programme is designed to enhance primary mathematics teaching and learning in order to develop mathematical proficiency, confidence and enthusiasm in our pupils.
